The soaring cost of education – REGIONAL QUEENSLAND

Regional Queensland is the most expensive region in Australia to educate a child in a systemic¹ school according to exclusive research released today.

The ASG Planning for Education Index discovered for a child born in 2017 the forecast cost of a systemic education in regional Queensland is \$199,328², 12 per cent or \$20,635 above the national regional average (\$178,693).

The results of the survey were slightly better for parents who plan to send their children to government or private schools in regional Queensland, with both systems slightly below the national regional average.

The forecast cost of a government education in regional Queensland is \$51,299, which is similar to the national regional average (\$51,948), and third only to regional Victoria (\$54,510) and regional New South Wales (\$53,806) as Australia's most expensive regions.

The cost of a private education in regional Queensland is estimated to be \$337,027, \$4784 less than the national regional average (\$341,811), but significantly more expensive than regional Western Australia (\$319,135) and regional South Australia (\$295,924).

The ASG Planning for Education Index also forecasts preschool or kindergarten in Australia could cost parents between \$2818 and \$8506 depending on the school type. These costs cover expenditure such as transport and clothing as there are no fees for preschool.

The survey also discovered that the estimated cost of a private education across regional Australia has soared by 61 per cent in the past decade. For a child born in 2017 the forecast cost of a private education across regional Australia is \$341,811, a jump of \$130,148 compared to a child born in 2007 (\$211,663).

The estimated cost of a regional systemic education has also skyrocketed by 52 per cent over the same period to \$178,693, while the estimated cost of a government education in regional Australia has climbed 19 per cent over the decade to \$51,948.

Based on more than 12,500 responses, the index calculates a range of variables including school fees, transport, uniforms, computers, school excursions and sporting trips to determine the cost of education.

School fees, the cost of extracurricular activities including excursions and uniforms have all risen in the past year, however computers and transport costs have fallen when compared to 2016.

¹ A systemic education includes religious schools e.g. Catholic, Anglican, Uniting Church, Buddhist, Islamic or Hindu

² These figures are the average estimated costs and represent the highest amount parents and families could expect to pay.

ASG member and Noosa mother of two Skye Duncan says she is surprised at the cost of education.

"It's a bit frightening really, but we're expecting to pay around \$2000 a year in school fees, which will probably be our biggest expense. Briley (year 2) and Mac (prep) attend a Catholic primary school and we live around the corner from the Catholic high school, so we hope they can go there.

We want to teach our children that they can achieve whatever they put their minds to. At the moment, Mac wants to be a monster truck driver and Briley wants to be a bird keeper. Being with ASG will help with their education and goal setting. Even if they don't realise it yet, we're helping create their future, whatever that may be."

ASG CEO John Velegrinis says the cost of education has risen at two and a half times the rate of inflation over the past decade.

"Our research predicts the cost of education will increase, irrespective of whether you send your child to a government, systemic or private school.

The estimated cost of a government education across regional Australia has jumped \$8443 in the past decade. That is why we encourage parents to start planning for education as early as possible, even from the moment their child is born."

Mr Velegrinis says Australians are fortunate to have excellent government, systemic and private schools to choose from, but costs can spiral out of control.

"If you have three children, the cost of educating them in Queensland's regional private education system could top \$1 million. That's more than the purchase price of the average family home.

We advocate parents use a disciplined approach by putting a little bit away each week so they can financially afford their children's educational goals and aspirations."

Independent statistician and Managing Director of foreseexchange Charlie Nelson says a range of economic factors influence the cost of education.

"Employment growth, hourly wages and inflation all impact the cost of living, which puts extra strain on the family budget.

With school fees likely to rise further, it has never been more important for parents to financially plan for their child's future."

Summary of total forecast education costs for a child born in 2017

	Location	Public	Systemic	Private
National	Metropolitan	\$68,613	\$239,672	\$487,093
	Regional	\$51,948	\$178,693	\$341,811
Australian Capital Territory	Metropolitan	\$52,012	\$233,194	\$447,307

New South Wales	Metropolitan	\$75,080	\$250,862	\$575,140
	Regional	\$53,806	\$173,354	\$364,230
Queensland	Metropolitan	\$60,135	\$243,964	\$372,037
	Regional	\$51,299	\$199,328	\$337,027
South Australia	Metropolitan	\$58,587	\$246,786	\$377,131
	Regional	\$50,079	\$197,508	\$295,924
Tasmania	Metropolitan	\$45,832	\$201,212	\$433,990
	Regional	\$48,064	\$165,042	\$350,211
Victoria	Metropolitan	\$77,371	\$224,548	\$536,515
	Regional	\$54,510	\$161,757	\$370,570
Western Australia	Metropolitan	\$56,788	\$235,800	\$407,627
	Regional	\$44,783	\$147,522	\$319,135

A very small number of responses were received from the Northern Territory in the most recent survey. As such, the provision of cost estimates for the Northern Territory in isolation would be highly unreliable and therefore have not been included. It is recommended that those in the Northern Territory refer to the national figures or the figures for adjoining states as a basis for planning. These figures are the average estimated costs and represent the highest amount parents and families could expect to pay. ASG cannot guarantee that they will represent the actual costs of education for a particular child.

Editor's notes

ASG conducts the ASG Planning for Education Index annually, asking parents to estimate education costs, which cover preschool, primary and secondary schools in Australia. Cost estimates are based on 12,500 responses collected by ASG.

To help with the costs of education, ASG Funding Solutions is an annual education costs payment service that takes the financial pressure off parents, families and guardians and allows you to pay for your child's school fees, uniforms, books and other education items in manageable instalments over the year.

ASG is a member owned organisation, helping to create educational opportunities for children. ASG has been helping families and their children for more than 40 years. During this time, more than 530,000 children have been enrolled with ASG and more than \$2.5 billion in education benefits and scholarship payments returned to members.
