

## Fund update for the quarter ended: 31 March 2018

This fund update was first made publicly available on 8 May 2018.

### What is the purpose of this update?

This document tells you how the Pathway Education Fund (New Zealand) has performed and what fees were charged. The document will help you to compare the Fund with other funds. Australian Scholarships Group Friendly Society Limited (ASG) prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

The Pathway Education Fund (New Zealand) is a versatile plan for any stage of your child's education journey. It provides the flexibility for you to determine how much you contribute, how often, and when your benefits will be paid for your child's education. Benefits can be used to help with education expenses across primary school (including preschool), secondary school and a wide range of post-secondary and vocational training courses.

The investment strategy for the Fund is to provide long term returns in excess of inflation by using a range of investment funds managed by professional fund managers to achieve a conservative balanced risk profile.

Total value of the fund <sup>1</sup> :	\$2,070,079
The date the fund started:	21 July 2017

### What are the risks of investing?

Risk indicator for the Pathway Education Fund (New Zealand).

\*As the Fund has been in existence for less than 12 months, market index returns have been used rather than the Fund's actual returns to calculate the risk indicator (for five years to 31 March 2018). As a result of these returns being used, the risk indicator may provide a less reliable indicator of the potential volatility of the Fund.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-kickstarter](http://sorted.org.nz/tools/investor-kickstarter)

Note that even the lowest category does not mean a risk free investment, and there are other risks that are not captured by this rating. This risk indicator is not a guarantee of a fund's future performance. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

### How has the Fund performed?

	Past year
Annual return (after deduction for charges and tax)	Not applicable
Annual return (after deductions for charges but before tax)	Not applicable
Market index annual return <sup>2</sup> (reflects no deduction for charges and tax)	7.63%

The market index return reflects the benchmark index returns for the relevant period prior to any deduction for charges and taxes. Additional information about the market index is available in the Statement of Investment Policy and Objectives (SIPO) on the register at [companiesoffice.govt.nz/disclose](http://companiesoffice.govt.nz/disclose)

The tax rate for the Fund is 30 per cent, which will be reflected in the annual returns once declared for the Fund after June 2018, however it should be noted that the value of the tax paid by the Fund is recouped at the time that Scholarship payments are made to eligible beneficiaries. As such, the annual returns when stated will potentially understate the actual returns that will be ultimately payable to eligible beneficiaries. Please refer to the Product Disclosure Statement for further information.

### What fees are investors charged?

Investors in the Pathway Education Fund (New Zealand) are charged fund charges. In the year to 31 March 2018, these were:

	% of net asset value
Total annual fund charges	1.66%
Which are made up of:	
Total management and administration charges	1.66%
Including:	
Manager's basic fee	1.30%
Total performance-based fees	0.00%
Other management and administration charges	0.36%* <sup>3</sup>
Other charges	\$ amount per investor
Enrolment fee (one off fee on joining ASG)	\$89.00
Administration fee	\$60.00

\*This amount is an estimate.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from funds). See the Product Disclosure Statement (PDS) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor<sup>4</sup>

Jason had \$10,000 in the Fund at the start of the year and did not make any further contributions. At the end of the year, Jason's Member Account was credited with a declared bonus, of \$763 (that is 7.63 per cent of his initial \$10,000). Jason also paid \$60 in other charges. This gives Jason a total profit before tax of \$703 for the year. Please refer to the Product Disclosure Statement (PDS) for further information.

## Notes

- Both the Pathway Education Fund (New Zealand) (OFR12057) and the Lifelong Education Fund (New Zealand) (OFR12088) are offers under the Pathway Education Fund (New Zealand) managed fund investment scheme (SCH12055). The total value of the fund figure represents the total value in the scheme across both offers.
- The market index return reflects the benchmark index for the relevant period. The market index returns are based on a composite of market index returns and are provided as a gross value prior to any charges or taxes being deducted.
- This investment management cost is an estimate only and can vary from 0.00% to 0.50% p.a. depending upon the investment managers in place at any time.
- As the Fund has been in existence for less than 12 months, the example uses market index return data for the past year to 31 March 2018 rather than actual returns. The market index returns are based on a composite of market index returns and are provided as a gross figure with no fees or taxes deducted. As a result of using market index return data, the example is not reflective of the after tax profit that would otherwise be outlined if actual returns data was available. The example therefore provides a less reliable indicator of the profit of the Fund.
- The 'Target investment mix' table displays the investment types and the ranges as prescribed by the Rules of the Fund. The 'Target' column details the asset mix ASG's appointed actuary adopts as their long term asset mix for the purposes of calculating and setting projections for the Fund's long term growth. The 'Actual investment mix' pie chart displays the actual investment mix of asset types as at 31 March 2018.
- For further information on each of the asset classes refer to the SIPO.
